I also indicated that it was unlikely that the Agency would have any unclassified material in these areas but added that we would keep it in mind if such should be the case. Mangum was not aware of the Jackson Subcommittee reports. He appreciated our calling these to his attention. (Senator Clark's interest in this field was discussed with Miss Fosdick, on Senator Jackson's Subcommittee staff.) No further action is required on this item at this time.

6. (Unclassified - GLC) Left a message for George Murphy, Joint Committee on Atomic Energy staff, suggesting that he contact Assistant Secretary of State Dutton in connection with the Committee's interest in [redacted] (See Journal of 24 September 1963.)
